4-HELP Information Service

The Campus Information Service "4-HELP" is a telephone service providing access to informational tapes covering topics of interest to ISU students. Dial 294-4357 and ask the operator for a particular tape by code number or topic. The operator will play the tape directly into the phone. If you do not find your specific question area listed, consult the operator. He or she should be able to determine the appropriate tape or direct you to another source of information. To make comments or suggestions concerning "4-HELP" please call the Office of Student Life, 294-1020.

How to in this Advertise Directory

This is Iowa State University's first combined Faculty-Staff and Student Directory. This Directory is also the first to be supported by paid advertising. The concept was enthusiastically received by local firms; and charter advertisers will be given the first opportunity to appear in next year's Directory. However, if you are interested in advertising in the Directory to be published in the fall of 1979, write to:

Publications Office
209 Morrill Hall
Iowa State University
Ames, Iowa 50011

You will be informed of deadlines, specifications, and advertising rates and, in the event of cancellations, you will be contacted according to the order in which your written inquiry was received.

Tornado Safety Information

- TORNADO WATCH means tornadoes are expected to develop.
- TORNADO WARNING means a tornado has actually been sighted or indicated by weather radar. Seek safe inside shelter and stay away from windows.
- Listen to a battery operated radio or television for further advisories.
- If you are in an office building, dormitory, or other multi-story structure, go to the interior hallways on a lower floor, preferably the basement. Avoid auditoriums and gymnasiums or other structures with wide, free-span roofs.
- If you are outside, listen for the tornado warning sirens, and take cover immediately. At ISU all the permanent brick and stone buildings on central campus are of reinforced construction and offer good shelter.
- If you live in University Housing be sure to review the Storm Protection information you have been provided.
- Tornadoes are spawned by severe thunderstorms, and are only one of the thunderstorms hazards. Lightning is the worst killer. Stay indoors and away from conductive surfaces, such as appliances and water pipes, while the storm is overhead. If you are caught outside, keep yourself lower than, and a safe distance from, the nearest high conductive object.
